

## Profile: Jeanette Manu - Angels New Lynn Centre

Talofa, my name is Jeanette. Early childhood has been my passion and purpose for over 15 years, I've managed for 10 years and have been apart of the Angels family for 8 years.

What I love about being at Angels is that it's not just a service of childcare and education its a family and the Angels family serves its community with love and compassion.

My mission for the Angels community is that we as adults install the skills and knowledge into children so that they become contributing members of society through the work that we do at Angels. We believe our children will be able to go into the world with resilience, compassion, self-control and knowing that they too can serve a purpose in our world.

Our Christian mission is to love and this is what makes us unique, we are accepting of people from all different worlds and cultures. One thing I have learned from being with Angels is that everyone has the ability to love and everyone deserves the chance to be loved.

In my years as Manager and leader of this wonderful team of Angels I have been inspired by the charitable works of our community. My skills and strengths in event planning and working with teachers and families has given our centres increased opportunities to work in partnership with our families for the benefit of our children and our future.

I am very proud to be a part of an extended family at Angels and I look forward to continuing working with our communities to build a better future for our children.
